

Annexation Bids Presented At Hearing in City Monday

The future of I.D.'s 77 and 78 was at stake at a public hearing in a board room of the Department of Municipal Affairs in Edmonton on Monday of this week.

Representatives of counties, municipalities and school divisions in the West Central Alberta area attended to present briefs and proposals concerning annexation of the area by neighboring municipalities and counter-proposals by those opposed.

The meeting, conducted by Mr. B. Ramsey, Chief Municipal Inspector for the Department of Municipal Affairs was attended by about thirty representatives of municipal government and school boards in the area. Mr. A.B. Wetter, Assistant Director of School

Administration, also took part in the proceedings.

The meeting heard a proposal from the Stony Plain Municipality to seek county status and to extend its boundaries westward by annexing the major portion of L.I.D. 77 and a smaller part of L.I.D. 78.

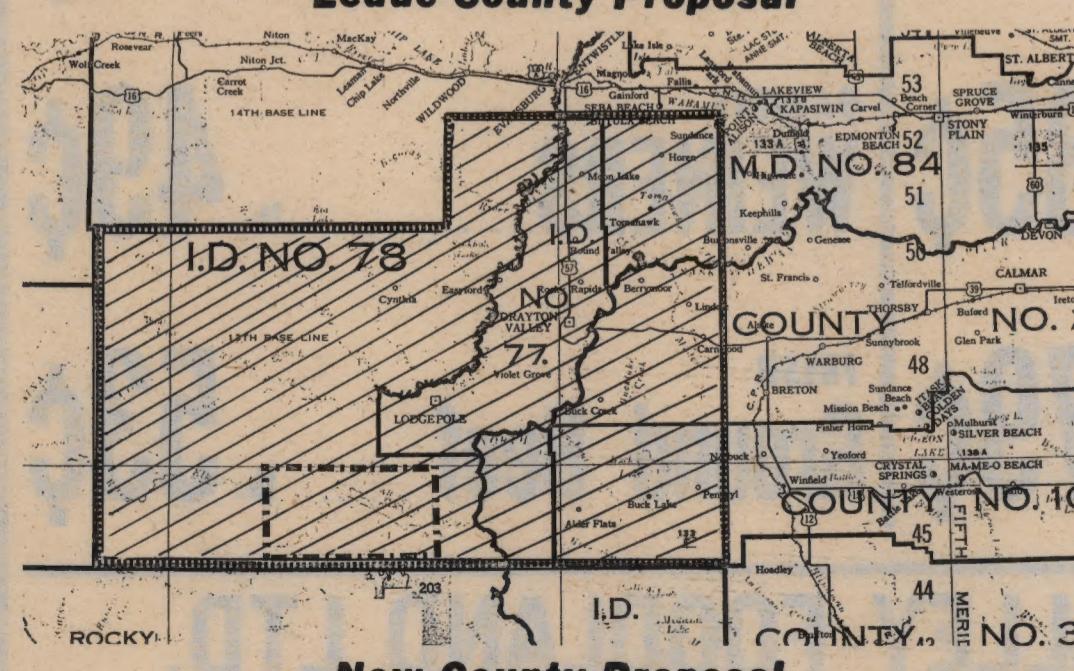

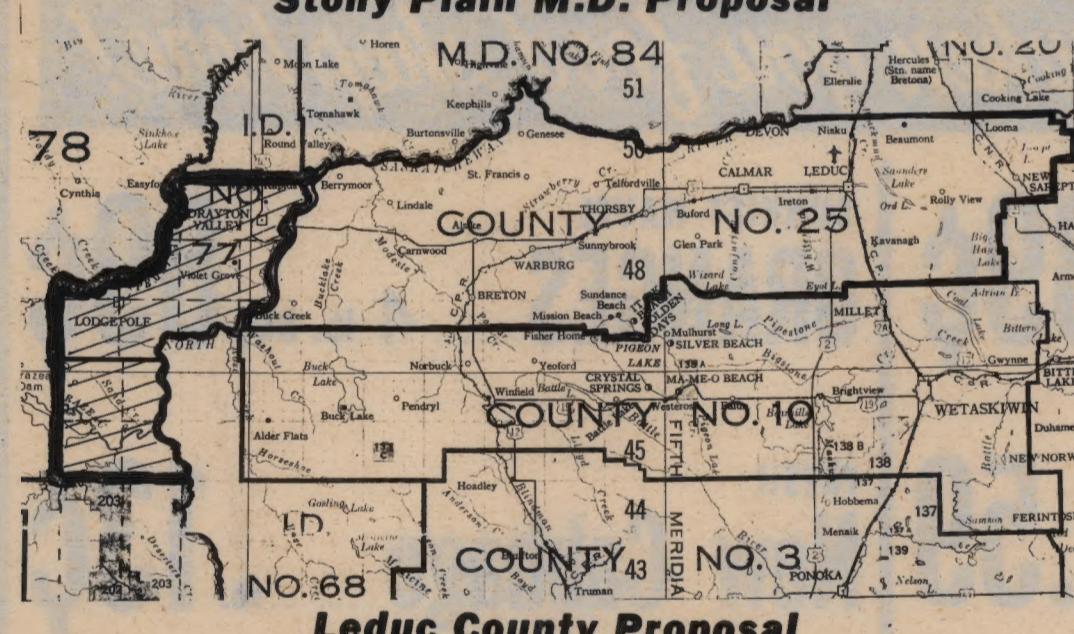

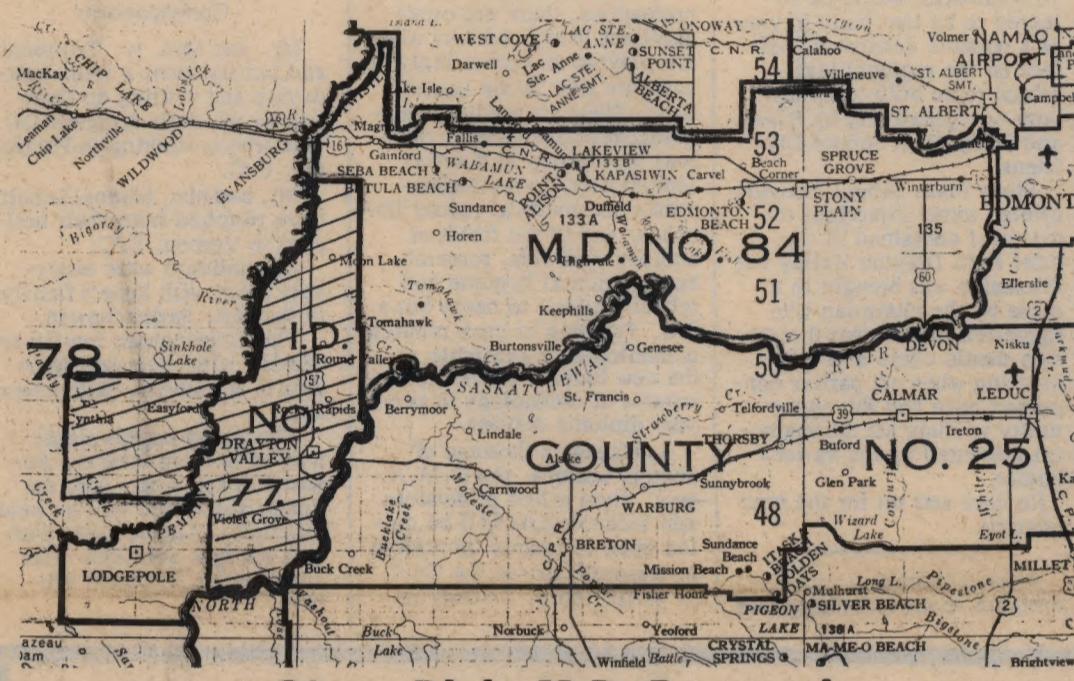

The Stony Plain brief noted its reasons for including parts of I.D. 77 and I.D. 78 that by so doing municipal and school boundaries would become co-terminous. The application, it notes, involves the least difficulty in extending municipal services since school division administrative authorities are already in the area.

The brief states, "the natural flow of traffic to and

from I.D.'s 77 and 78 is to and from the north east, making for the maximum convenience for administration and for communication with any offices not in the immediate area."

No financial problems are foreseen by the brief as it notes there is no change in the area involved or available assessment. It also notes that no problem is foreseen for municipal purposes. It states that in the opinion of the Municipal Council of Stony Plain the assessment of the proposed county will support adequate municipal services without unfairness either to the existing M.D. or to the residents of I.D. 77 and I.D. 78.

THE WESTERN REVIEW

DRAYTON VALLEY, ALBERTA

VOLUME IV. NO. 31

JULY 31, 1968

PRICE 10¢

Bruce Romano (L) and Allen Dahl, both four years old, are shown admiring one of the giant leaves from the "Whatsit Bush" that dwarfs them in the background. Bruce is the son of Mr. and Mrs. Walter Romano and Allen the son of Mr. and Mrs. Merle Dahl.

Plant Puzzles Town Family

Mr. and Mrs. Walter Romano of 4715-47th Avenue have a problem of plant identification in their back yard and welcome the opinion of gardeners who might have the solution.

The plant grew voluntarily against the back of their house last summer and attained the size of a rhubarb plant. This year it has exceeded last year's effort many times over and is now about six feet high. Last summer it grew only

leaves. This year it has further confused the issue by breaking out in a mass of purple-tinged stick balls.

The Romano's are puzzled about the identity of the plant that looks something like a cross between rhubarb and thistle.

If you have a minute to spare drop by and look at the plant. You might have the answer as to just what Mr. and Mrs. Romano are harboring in their yard.

NO PAPER NEXT WEEK - HOLIDAY TIME

The postal strike is beginning to get to The Western Review.

Cut off from normal sources of press releases, feature material, correspondents' reports and national advertising agencies, compiling of each succeeding edition has become more difficult as the strike continues.

It appears to be an appropriate time to knock off work for a week and enjoy a holiday and unless circumstances change to warrant a paper next week we propose to do so. Between the time this is written and the weekend the picture could change but if it does not, the next issue of this newspaper will be on Wednesday, August 14th.

Annexation Bids Presented At Meeting in City Monday

Cont. from Page 1

The County of Leduc proposal indicated a desire for only the southern half of I.D. 77 (from the Easford-Cynthia road south) and a portion of the area west of the Saskatchewan River between the southern boundary of I.D. 77 and the 12th base line.

In its reason for annexation the brief states that, "the County of Leduc No. 25 is equipped to provide an acceptable standard of municipal services to the area proposed for annexation and a number of desirable school facilities and services could be made available to the residents in the area proposed for annexation and also for the residents in the western portion of the present county. The enlarged municipality would be a well integrated municipal unit with two major centres - the Town of Leduc and the Town of Drayton Valley. The whole unit would be served by an effective highway system, and access to both major centres as well as the City of Ed-

monton is available because of the location of Provincial Highway No. 57."

The Leduc brief notes that the Town of Drayton Valley would be a logical location for a vocational school to serve the western area of the county and that the town would also be the site of a county sub-office.

The County of Lac Ste Anne suggested in its brief the return of the area in the northern part of Stony Plain Municipality which was at one time a part of Lac Ste. Anne. The area includes the Wabamun-Seba region.

A proposal for an entirely new county was presented in a brief from Drayton Valley over the signatures of C.R. Wickens for the Citizens' Committee, Dr. H. Shimbashi for the Drayton Valley Town Council and M.R. McCullagh for the I.D. 77 Advisory Committee.

The brief was heard over the objections of counsels for Leduc County and Stony Plain M.D. who were supported by

the chairman in their contention that if the brief was not presented by a recognized municipality (i.e. county or municipal district) it was not valid.

The chairman ruled that the brief would be heard for information purposes but that any formal request for change in municipal status must come from the people of I.D. 77.

The brief suggests the creation of a new county embracing I.D. 77 part of I.D. 78 and the western tips of Stony Plain municipality, the County of Leduc and the County of Wetaskiwin. (The brief is printed in full elsewhere in this paper.)

A representative of the Edson School Division stated that any interference with I.D. 78 boundaries would be objected to by that body in view of a possible detrimental effect on the regional high school to be built at Evansburg co-operatively by Edson and Stony Plain School Divisions.

Stony Plain School Division offered some objections to material contained in the brief from Drayton Valley but discussion was brought to a close by the chairman who suggested that further discussion should come at a later meeting when all parties concerned have had the opportunity to study all the material presented by the various bodies.

No date was set for the next hearing.

A good listener is usually thinking about something else.

EDITORIAL COMMENT

Future of I.D. 77 Now In Hands of Its Residents

The surprising thing about the annexation bids by the M.D. of Stony Plain and the County of Leduc is the apparent silence by the people of I.D. 77 who should be greatly concerned about the future of their area. We don't believe they are disinterested but the outward expression definitely creates this impression in a major issue that has been hanging fire for several months and should be common knowledge throughout the district.

As a spectator at Monday's hearing of applications for annexation in the Department of Municipal Affairs this writer was surprised and a little dismayed that no one could speak officially for the people of the I.D. who's future is at stake. It is true that a representation from Drayton Valley and surrounding area was present but only to be informed that their presentation carried no official weight and must come from the people of the I.D.

So the ball bounces right back home - the people of I.D. 77 can take a stand and express their desires or sit back silently and the future will be decided for them. This newspaper does not presume to recommend any course to people of the area but does urge that they take a stand one way or the other and make their feelings about the future known.

When the subject of municipal government is raised we have often heard residents of the farm area around us ex-

press the desire to "remain an L.I.D." We don't believe there's even a remote possibility of this happening. I.D. 77 will undoubtedly become either a part of Stony Plain or Leduc County. You should at least enjoy the privilege of suggesting where you would prefer to go or if an alternative is preferred.

Time is running out and unless this matter is treated as an emergency it will soon be too late to play any part in shaping the destiny of this region.

Public meetings should be held throughout the farm area and all aspects of this matter reviewed. When the definite feeling of the area is established, official delegates (meeting every legal qualification required) should be appointed to see that the wishes of the majority of residents of I.D. 77 are presented at the next hearing by the Department of Municipal Affairs.

The next hearing could be held at any time so it is imperative that people of the area act now. It will be too late to try and accomplish anything if the meeting should be called during the fall when everyone is busy with harvesting and you are then faced with an almost hopeless chore of trying to organize a gathering.

And we're quite sure that unless you take a stand you'll find yourself a part of a neighboring municipality - like it or not.

**COUNCIL
BRIEFS**

At the regular meeting of Town Council held on Thursday, July 18th the subject of the Early Closing Bylaw was discussed at some length and Bylaw No. 404 given two readings. The new bylaw (reported in last week's Western Review) revises qualifications for business places that may remain open after normal hours.

Final reading of the bylaw is expected at the next meeting.

Mr. Fred Pankewicz attended the meeting to discuss the proposal to develop the un-subdivided parcel he owns contained in Certificate of Title No. 136-174 located immediately north of Lots 3 and 21 in Block 23, Plan 1793 KS. A twenty-five foot wide strip runs through the centre of the property to join with the lane on either side.

As compensation for use of the lane Council tentatively offered the sum of \$300 to pay for costs of subdividing the parcel with any unused portion of the amount going to the owner.

Mr. Pankewicz advised

Council that he would think over the offer and advise later.

x x x x x

Owing to the fact that the Health and Dental Program in Drayton Valley is being conducted from his office, Dr. Henry Shimabashi resigned his position as Chairman of the Public Welfare and Health Committee and Councillor Mary Burrows was appointed as his replacement.

x x x x x

It was moved that the Recreation Board be requested to revise closing date of the pool to facilitate evening swimming after September 8th, weather permitting, to September 15th.

Council appointed Mr. Jack McLean as Drayton Valley Probation Officer subject to his acceptance.

x x x x x

Council authorized the sale of Lot 3, Block 44, Plan 7067 KS to Donald Howarth for the sum of \$700.00

NEWS**

MRS. D. MARTIN
Correspondent.

We are pleased to report that Jack Loader is home from hospital and is feeling much better. Nice to see you back again, Jack.

Mrs. M. Whittaker is away from the district for a few days.

About twelve ladies gathered at the home of Mrs. Doris Laughlin on the afternoon of July 24 to attend a Tupperware party. The demonstrator was Mrs. Gladys Paul of Thorby.

Mr. and Mrs. Ted Miko and family of Sedgewick, Alberta stopped overnight at the David Laughlin home. The Mikos lived in Berry Moor a number of years ago and were renewing old friendships during their stop over here.

On the evening of July 23 a large public meeting was held at the Lindale Hall. The question of whether or not our county boundaries should be changed received a lot of discussion.

A number of our local boys went on a trip to Jasper Park. Recent rains had stopped haying operations so the boys took this opportunity to have a brief holiday.

Miss Carol Thorsen of Calgary spent a couple of days at the home of her brother, Dwayne. Another brother Brian, has also spent a few day days with Dwayne.

Sincere congratulations to Mr. and Mrs. Garry Phillips, nee Maxine Gillespie, who were married on Saturday, July 27. Their wedding dance was held in the evening at the Lindale Hall and was very well attended.

Wedding bells also rang in the Buck Lake Community on Saturday, July 27. Congratulations to Mr. and Mrs. Art Reggenwetter, nee Leanne Siebin. Their dance was held in the evening in the Buck Creek Hall.

Mr. and Mrs. Gordon Tryon from Ryley, Alberta spent the weekend visiting relatives in the Alsike and Berry Moor districts.

Mrs. George Martin has her sister, Mrs. Eda McDonald from Williams Lake, B.C. visiting with her for a few days.

George Martin had a pleasant surprise on Sunday, when his cousin, Charlie Brown, from Fort Saskatchewan came to call on him.

The Golden Spur Gymkhana Club held their regular meeting on Sunday at the Lindale Hall. Quite a number of spectators were there and report a very enjoyable and interesting afternoon. Several local people were participants in the various events, and also came away with some of the prizes.

Annual Cavalcade

The official opening of the David Thompson highway will be held on Saturday, August 3rd in conjunction with the annual David Thompson Cavalcade. On hand for the opening, will be members of the federal government and the provincial governments of Alberta and British Columbia.

This very scenic highway was completed in August 1967, and connects central Alberta and East to Saskatchewan to the Banff and Jasper Highway. It is hoped that in the near future it will be possible to extend the road through the Howse Pass and connect to the Trans Canada Highway at Golden, B.C.

Entertainment and sports events together with this official opening will be the highlights of the Annual David Thompson Cavalcade.

Brief Presented to Municipal Affairs Department

THE WESTERN REVIEW - Drayton Valley, Alberta - July 31, 1968 - Page 5

To: The Government of Alberta,
Attention: Department of Municipal Affairs,
Department of Health and Welfare
Department of Education

Dear Sirs:

The Town Council of the Town of Drayton Valley and elected advisory committee of Improvement District No. 77, respectfully submit a Report on Investigation of School, Municipal, Health and Economic Systems that Affect Decisions Concerning County Formation in the General Area Surrounding Drayton Valley. This Report has been prepared by a group of citizens in both the rural and urban areas of this district and with the help and guidance of many other people.

Representatives of this group would be pleased, upon request, to attend meetings in any of the addressed departments for the purpose of supporting the Report and its effects if implemented.

Yours very truly,

C.R. Wickens
on behalf of Citizens' Committee

Dr. H. Shimbashi
on behalf of the D.V. Town Council

M.R. McCullagh
on behalf of the I.D. 77 Advisory Committee

Report on Investigation of School, Municipal, Health And Economic Systems that Affect Decisions Concerning County Formation in the General Area Surrounding The Town of Drayton Valley

PURPOSE

To assist the government in planning the formation and/or altering of county and municipal boundaries in the West Central Alberta area.

REASON FOR INVESTIGATION

- General dissatisfaction with the proposal of Stony Plain M.D. to extend their boundaries to include in part I.D. 77 and form a county.
- Ondated school division boundaries which no longer represent an effective area from which to govern and operate the area of concern.
- Inadequate and poorly planned schools in Drayton Valley which results from a lack of local direction and control.
- Complete lack of self-government for the subject area in that school, municipal and health services are directed from locations far removed from the economic and cultural center of the community at large.
- Lack of central economic support from these same service headquarters because of their distant location and natural and predictable self interest.
- Costlymunicipal services because of the lack of local co-ordination and direction from other than an advisory body.

CONCLUSIONS

- The area, as outlined, represents an area of approximately 76 townships and rural population of about

an effective municipal or county unit.

2. If the boundaries of a newly formed school division were coterminous with the attached area outline, a new center of control and direction would emerge which would bring up to par and maintain an acceptable school standard in this area.

3. Future planning for schools could be done far better than at present because of the knowledge that the new boundaries would include a self-governed, self-sufficient, stable area.

4. The people of the area outlined are presently included in the trading area of the geographic, economic and cultural centre of the unit.

5. Road and highway systems presently converge upon and can best be serviced from the economic and geographic center at the Town of Drayton Valley.

6. The progress made in the outlined area in the past 10 years indicates that the people are capable of self-government. This is in part due to the increased personal income and reasonable stability of agriculture and industry.

7. No one adjacent municipality or county would lose a large tax productive area without also losing an area that needs that same tax revenue for its own future development, thus net loss or gain is at a minimum.

8. Since Drayton Valley is presently the actual health and hospital center for the outlined area, future health unit or sub-unit planning would be more economical and effective if the official Health administrators were located in Drayton Valley.

9. Drayton Valley is presently the recreation and municipal library centre for the area and has provided (with financial help) the facilities for these activities. These activities would be easier handled with central self-government.

10. Drayton Valley is the centre of oil company local management and since co-operation between rural and industry people is essential to good relations, local rural government should be located

4,000, urban population of about 4,000 for a total of about 8,000 people and would form

at this center.

11. It would be an appropriate time to set aside a park area in the Brazeau Dam area.

RECOMMENDATION

1. That the government consider and implement the formation of a new municipal or county area as outlined in this brief report for the purpose of improving school, municipal and health services to the people in the general area of Drayton Valley.

DISCUSSION

For clarity in this report, we have divided the study into 3 basic sections and will discuss each separately. 1. Municipal services and economic considerations. 2. School services. 3. Health, hospital, cultural and recreational services.

MUNICIPAL SERVICES AND ECONOMIC CONSIDERATION

One important reason for municipal or county boundary dissatisfaction is, that the recognition of the population and economic centres of a given area are not given sufficient consideration in establishing local boundaries of government. In the case of the subject area, the entire economic and population complex has changed drastically since boundaries were set and that which was correct in 1953 is no longer so. A change in boundaries is now necessary. This area has only one large population center at Drayton Valley and yet is presently governed in school matters from 70 miles away by an

Brief Presented to Municipal Affairs Department

Cont. from Page 5
area that falls under strong city influence and where the school superintendent does not even live in the school division. It is governed in municipal matters by provincial employees who are located in two areas of 90 miles away (opposite directions) from the economic centre. Health and Welfare are operated under the same conditions and thus the people of the outlined area must depend primarily on persuasion and trust in all matters of local government. They cannot combine private business with government business since the government centres are far removed from the normal places the local people travel within their daily sphere of activity. It is true also, that the administrative services and jobs that result are swallowed up completely by each of the neighboring centers that control and host these headquarters. It becomes difficult for local members on these government bodies to be rational in their consideration, when most of

the fruit hangs over in the neighbor's yard.

The Pembina-Saskatchewan River area is now very accessible with the present road and bridge systems and it is easily calculated that the geographic center at once becomes the most economical center to conduct the business of road construction, road graveling, grading and plowing. This area also has an abundance of privately owned road equipment (as a result of its oilfield requirements) and a new municipal area so outlined would not have to maintain as large a supply of equipment and personnel for seasonal requirements as would normally be expected.

The area is economically able to exist as a municipality or a rural county and end up with a yearly surplus of approximately \$99 per capita. This surplus would be sufficient to finance all necessary administration accommodation and purchase basic road equipment in a period of about 2 years. This assumes that all areas not presently in I.D. 77 would

follow the average revenue and expenditure per capita of the M.D. of Stony Plain. Total rural population estimated was 4,779. We are given to understand that suitable serviced land would be available in the Town of Drayton Valley at no cost for the purpose of municipal or county requirements. It should also be noted in the boundary changes suggested, that the areas that have been annexed from the County of Wetaskiwin and Leduc and the Municipalities of Stony Plain and I.D. 78 are all areas that would be considered the most underdeveloped in each of their respective parent areas. However, some of these areas are fairly high revenue producing areas and thus would not be an undue burden on a new municipality or county with their annexation.

Most of the oilfield administration and operation offices are located in the geographic center of the area; namely, Drayton Valley. Since the basic industry of oil is centered there, it should follow that the normal municipal operations should also be centered in Drayton Valley. This business and government centralization would improve communication and lead to better agreements and better understandings between rural and oil company personnel. We believe that the cost of municipal services will be less and that the ease of doing business generally between urban, rural and business people will be improved if a new municipality or county is formed as indicated in this submission. There would be less duplication of effort in road construction and maintenance if this centralization was effected.

Two other points should be discussed here since they came up numerous times in our investigations. Investigation of operating revenues and expenditures indicate that some consideration should be given to the formation of a rural-urban county including Drayton Valley, I.D. 77 and the southern inhabited part of I.D. 78. This has the advantage of not disrupting other municipal boundaries and yet solves the problem of local centralized government for the areas in question. This form of government would be most economical and operable for this unique population center. This is not a first choice but would be preferable to annexation by a distant center. Also continued oil and gas development south and west of Brazeau show the need for an improved provincial road from Drayton Valley through Lodgepole - Brazeau and onto the proposed David Thompson highway. The Brazeau Dam site and lake should be preserved as part of this future scenic route and as such should be set aside as a provincial park.

SCHOOL SERVICES

This report shall not indicate that school services could be done cheaper under new administration operating from a revised school division, but it does strongly suggest that this area has not been getting the planning and support that is required from the present school division.

DISCUSSION

(a) From the general plan of the Town of Drayton Valley it can readily be seen that all of the school buildings have had extensions; The elementary school consists of an old school house with two successive additions built on. The junior high as well as the senior high have been built in two sections.

(b) Despite the present building facilities and despite the availability of school and pre-school population figures, Drayton Valley public school faces a shortage of rooms next year and a severe shortage in the next few years. Yet the Separate School, having local authority here, has provided in plenty of time, for future requirements.

(c) As mentioned in the study, the educational planning is contrary to current practice and appears haphazard, i.e. the elementary school consists of grades 1-4 (Division I and part of II), the junior high consists of grades 5-8 (part of division II and part of III), and the high school is composed of grades 9-12 (part of Division III and Division IV).

(d) A cursory inspection reveals: that the grounds around all the buildings are in poor repair - uneven - rock strewn and generally hazardous as playing areas. That facilities in the schools are not adequate, - none of the schools have vice-principals' offices. - two of the schools have no secretarial areas. - the high school has no counselling room. - no sick room. - no storage space to speak of and but two showers for girls and two for boys for a population of 300 grade 9-12 students.

A comparison with the high school in the Town of Stony Plain reveals that while there are only 80 more students in Stony Plain there are double the teaching areas and more than half again as many teachers. Comparisons made with other schools in adjacent divisions show Drayton Valley in a similar poor light.

(e) A study of the population graph for Drayton Valley (assuming no further growth takes place) reveals that the average enrollment per grade in Public School is approximately 130 and in the Separate School 35-40; a total of some 170 pupils per grade. Beyond grade one for the next two years, starting enrollment remains high followed by a slight decline for one year but again followed by a rise.

SUMMARY

It appears: that more educational facilities need to be provided; that planning would best be provided by a local authority rather than by an authority far removed from the situation, as is presently the case; that in conjunction with other observations in this presentation, these facilities can be well afforded in this area; that the best interests of our large and growing student population will best be served by an authority constituted

locally since our own interests are here and any other authority is too far removed from the situation to have personal interest as appears to presently be the case; that extending boundaries from Jasper Place to the Brazeau Dam or, the other alternative, to join our area to Leduc would only maintain the present condition i.e. having the authoritative body too far removed from the local situation.

Additional Needs & Comments
Elementary needs: a. More storage room; b. Music room; c. Science room; d. more work to convert classroom into a library; e. better washroom facilities; f. additional classrooms.

Junior High needs: a. More storage; b. Music Room; c. Science room; d. at least two classrooms.

Senior High needs: a. larger library; b. classrooms; c. storage facilities; d. counselling rooms; e. office facilities.

LOGEPOLE

Educationally and economically unsound at present. The highest enrollment per grade is 12, necessitating split classes and cycling the curriculum. The grade 9-12 students are already attending in Drayton Valley.

CYNTHIA

Presently coming to Drayton Valley by bus.

OTHER

Some children also come from areas in both the Tomahawk - Seba Beach area and from across the Saskatchewan River in Leduc County to attend this school district in Drayton Valley. These are by choice of the students families and indicates the desire for a revision in school district and division boundaries by the general public.

INVESTIGATION OF PUBLIC HEALTH AND WELFARE IN THE DISTRICT OF DRAYTON VALLEY

Public Health is presently served under the direction of the Edson Health Unit with head office at Edson. Department of Welfare is directed by a Welfare Officer who visits the area out of his head office at Edmonton.

The present service by both the Health Unit and Department of Welfare was adequate for the population it was set up for, which was in the number of 2,000 but with the population booming to near 10,000 in the past 10 years, the service has become very

Cont. on Page 7

Knife speeds up to 30% faster than other "pitmanless" mowers give Massey-Ferguson Dyna-Balance mowers unequalled performance. Working smoothly, quietly, and with minimum vibration, these new mowers cut a field down to size in a hurry. You match knife speeds to crop and mowing conditions through variable-speed pulley... no switching of belts, pulleys, or throttling down the engine. Available in side or rear mounted and pull-type models.

Massey-Ferguson's big side mounted Dyna-Balance mower puts the cutter bar up front where you can watch it without straining, leaves hitch completely free for conditioner or other equipment. The MF 71 lets you mow with cutter bar at 45 degree angle... you can work steep banks. Mounting or removal is so easy it can be done by one man in under five minutes. This is the mower we show the man who wants the finest machine obtainable.

Three low-cost pitman drive mowers.

If you prefer a direct-line pitman mower, Massey-Ferguson offers three of the best in 3-point rear mounting, side mounting, and pull-type models. These improved mowers are Massey-Ferguson quality throughout... they incorporate many long-wearing, smooth-operating, fast-cutting features usually found only on the higher priced mowers.

Brief Presented to Municipal Affairs Dept.

Cont. from Page 6
inadequate to serve the people and their needs. Due to the geographical location of both head offices, the people in the Drayton Valley area are not receiving prime benefit of the excellent program laid down by our present Government.

Drayton Valley has now become a natural geographical center for the health services extending from Evansburg in the North, Buck Lake in the South, Niton in the West and Breton in the East. This has been brought about by the facilities that have been provided by the business people in the community of Drayton Valley. At present the area is served by - Modern 55 bed hospital with two major operating rooms, one minor operating room and emergency operating room. - 6 medical doctors operating out of two clinics, - 2 dentists, 1-optometrist, - 1 chiropractor, several visiting specialists, 2-pharmacies with pharmacists to serve the public at all times.

The Town of Drayton Valley with all the above services has also a complete line of other professional services i.e. Chartered Accountants, Lawyers, Insurance Agents and all retail outlets which make the community self sufficient. The town has now reached a premium in the service to the people of the district and we ask the Government to give this model town the recognition that it deserves by reforming municipal and health unit boundaries to allow the people in the general area better service per dollar contributed.

INVESTIGATION INTO THE CULTURAL AND OTHER COMMUNITY SERVICES IN DRAYTON VALLEY

Cultural needs are met in Drayton Valley and District by a host of country wide, nation wide and world wide organizations. Virtually the District is served by 9 churches, who serve the people very adequately and play an active part in the promotion of the community whether it be in participation or in support. Private clubs which are the backbone of the community spirit are very active in the town as can be seen by the many projects that they have sponsored and supported. Private lodges include the - Elks Club with their own building which serves the community very well; - Masonic Lodge. Service Clubs - Lions Club who have promoted two recreation areas for the town; Rotary Club who are now finishing a recreation area in town; Legion who are now completing their building complex. Other cultural needs are met by a host of private clubs who are promoting such things as art, ceramics, phy-

sical fitness, ballet and other hobbies which fill in the leisure time of the people of the district.

INVESTIGATION OF RECREATION PROGRAM IN DRAYTON VALLEY

Drayton Valley hosts one of the better recreation programs in the Province today. The recreation program is greatly enhanced by the facilities that are provided here by the town and enjoyed by both the people in Drayton Valley and in the surrounding areas, reaching to areas of Tomahawk, Lodgepole, Breton and Alder Flats to the South. The facil-

ties include: a. Heated swimming pool of olympic size; b. Skating rink with artificial ice, heated skating areas and meeting rooms; c. curling rink with 5 sheets of artificial ice and excellent lounging facilities; d. Golf course with 9 holes of plush fairways and club house for relaxation; e. Recreational Park with 3 regulation ball diamonds, regulation football field, race track, gymkhana grounds and picnic areas; f. Recreation halls housed in the schools, most have regulation basketball courts, used for other activities and are open to the public for use; g. Tennis court with two regulation tennis courts enclosed and with asphalt base. h. Bowling alley with 5 deluxe lanes which runs year round; i. Playgrounds within the limits of the town to ensure the children of year round

activities.

The major portions of the recreation program are aided by the residents in the town. The town hires a recreational director who has a recreation board acting to direct the program for the minors in the town.

The people of the Town of Drayton Valley and area are more than adequately served by the facilities in Drayton Valley.

Control of Garden Pests

Anyone who has a garden will find the publication "Control of Garden Pests" an invaluable aid to insect control in vegetables, flowers and lawns.

The 1968 edition contains the most recent insecticide recommendations and restrictions known at the time of its preparation. It also provides an illustration and description of all the common garden pests and tells you when and what to expect in the way of damage.

The 1968 edition of "Control of Garden Pests" can be obtained from district agriculturists and the publication office of the Alberta Department of Agriculture, Edmonton.

Meet Molson's quality control department.

Brewmaster Steinecker is the best man to judge the quality of beer.

He comes from a long line of Bavarian brewers and he developed a better way to brew beer.

Here, at Molson's Edmonton Brewery, our new Steinecker Brewhouse ensures that every bottle is naturally brewed to consistently great flavour.

Only then do they receive Brewmaster Steinecker's seal of approval and the Molson label.

D. V. Highlights

BY MRS. EDITH DEBY

Mr. Ernest Humbke, of Camrose, visited his son-in-law and daughter, Mr. and Mrs. Lawrence Sharkey last week.

Remember the Bill Schmidts that used to live south of Violet Grove? They have retired to Vancouver Island and have an oyster farm.

Roger Badick, son of Mr. and Mrs. George Badick, has been attending the University of Alberta in Calgary for the past three years. When this year's results showed that Roger was successful in all his subjects he remarked "Three

gone and two to go". He is taking Commerce.

Mr. Henderson has been transferred to Calgary by his company and the family will be moving as soon as a suitable house can be found.

Mr. and Mrs. Ken Straarup have just returned from a two week holiday spent on Vancouver Island.

Mr. and Mrs. Dale Gooler, of Lethbridge, were weekend guests at the Otto Guzes. Mrs. Gooler is the former Edith Guze.

Joanne Chenery has just returned after spending a most

enjoyable two weeks at the Girl Guides Interprovincial Camp near Chilliwack. Joanne was one of eight guides to attend from Alberta. Girls were chosen for their experience and ability in camping.

Mr. and Mrs. Mike Wilner and Valerie very much enjoyed their stay in Ontario and Quebec. They toured Ottawa and visited "Man and His World" in Montreal. Mrs. Wilner says they were much impressed with it. Chicago was something else again.

Members of Mr. Leo Look's family paid him a four day visit this month. They are his son, Art, with his wife, and grandson Kenneth with his wife and family. For many years Art Look had been Conservation Officer for wildlife at Fort Churchill. He has recently been transferred to Yellowknife. Mr. Look's family is most enthusiastic about business opportunities in the north. Later in the month Mr. Look's youngest grandson from Fort Simpson paid him a short visit, also.

Mr. Henry Dunington has his brother-in-law, Mr. Ritchie, of Burnaby, visiting him.

Magistrate Keyes, who has been ill for the past month, is back at work on his circuit this week.

We are sorry to hear that Mr. Bert Telford's father is ill.

Congratulations and best wishes for future happiness are extended at this time to Mr. and Mrs. Ralph Germain and Mr. and Mrs. Regenwetter. Mrs. Germain was formerly Miss June Nicolls and Mrs. Regenwetter was Miss Leanne Sieben.

Mrs. Belinda Alton and her sisters were in town for a brief visit on Tuesday. Mrs. Alton will be well remembered by those who were in town when we had a telephone exchange. She was one of our pleasantest "Hello Girls".

Insects carry dutch elm disease from sick to healthy trees.

BUY SHOES AT 3 O'CLOCK

Your feet are about mid-point in size during the afternoon, say specialists who just completed a study on women's foot problems.

Another discovery: Few people have two feet exactly the same size. Moral: Put your largest foot forward when trying on shoes. There is only 1/4 in. difference in shoe sizes.

Second Section

THE WESTERN REVIEW

Drayton Valley, Alberta
Vol. IV, NO. 31 July 31, 1968

15-Year Plan at U. of A.

Alberta Minister of Public Works, the Honourable P.C. Colborne, has officially announced preliminary plans to facilitate expansion at the University of Alberta over the next 15 years. The overall design concept involves a long range development plan in Edmonton's North Garneau district. The area comprises some 40 acres of land adjacent to and immediately east of the present campus.

The plan provides for three independent building programs to accommodate academic facilities, housing and parking. The first stage of construction will be a new law building. Work on this structure is expected to begin in early 1969, and the cost of construction is an estimated \$3.5 million. Other academic facilities in the expansion program include buildings for agriculture, business administration and commerce, humanities and social science library and fine arts. The residential phase of development will ultimately provide accommodation for 2,500 students.

Close to 80 percent of the land for university expansion in the North Garneau district has already been acquired for development. The cost of total land acquisition, with some 66 properties still to be included, amounts to approximately \$6 million.

PUBLIC SALE OF LANDS

UNDER THE TAX RECOVERY ACT

R. S. A. 1955

TOWN OF DRAYTON VALLEY

Notice is hereby given that under the provisions of the Tax Recovery Act, the following lands will be offered for sale by Public Auction to be held at the Town Hall, Drayton Valley, Alberta, on Wednesday the 25th day of September, 1968:

along the way. For information about low fares, fast convenient schedules - call Coachways.

United Church Setting For Recent Ceremony

Drayton Valley United Church was the setting recently, when Shirley Tuks, daughter of Mr. and Mrs. Herman Tuks became the bride of Mr. Peter Lester, son of Mr. and Mrs. John Lester.

The bride, given in marriage by her father, was charming in a gown of white nylon over satin worn en train. A shoulder length veil fell softly from a rhinestone tiara. She carried a bouquet of red roses.

She was attended by two bridesmaids Miss Wendy Miller, her cousin, of Sangudo, and Miss Gloria Brodersen. The bridesmaids wore identical gowns of turquoise satin

styled with a high Empire waistline. They wore elbow length gloves, rhinestone tiaras and carried bouquets of yellow roses.

Miss Jean and Miss Sandra Tuks, sisters of the bride were flowergirls. They wore dresses of white lace over satin, velvet hair bands and carried pink roses.

The groom was attended by his brother, Mr. John Lester and Mr. Richard Le Maurier. Mr. Bruce Schmidt was usher.

Rev. Ingram preformed the double ring ceremony. Mrs. G. Pedersen presided at the organ.

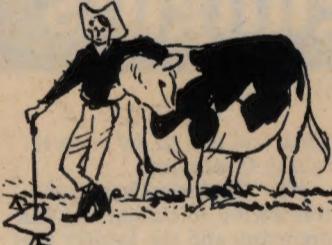

The reception was held in the Cardium Room of the Drayton Valley Hotel. Mr. H. Bicker of Wetaskiwin was Master of Ceremonies. Mr. Bill Brodersen proposed the toast to the bride.

The mother of the bride wore a dress of soft pink, beige coat and hat. Mrs. Lester chose a navy blue suit with pink accessories.

For her going away outfit the bride chose a brown and beige tailored dress with matching accessories.

Mr. and Mrs. Lester will honeymoon in Jasper, Banff and Calgary. They will make their home in Lodgepole.

Out-of-town guests were the bride's aunt and uncle and cousins from Sangudo - Mr. and Mrs. Ken Miller and family. The groom's mother's sister and nieces from Calgary.

Branding Doesn't
Hurt Anymore

It may take away some Wild West glamour, but cattle are hoping new "freeze" branding will replace the old hot iron. Freeze branding is painless, causes less hide damage, and is easy to spot at long distances.

A copper brand, chilled in a dry ice alcohol bath to 158° below zero, kills pigment-producing cells; when hair regrows, it's permanently white. Hair in the branded area also is thicker and longer.

Best time to freeze brand is during spring or fall, when cow's hair grows fastest. Cost is less than 5¢ per brand.

REMODELLING THE FARM HOME

There are several factors to be taken into consideration before you can decide whether you should remodel an older home or discard it and build a new one. First decide what needs to be done and how much it will cost. Sit down with a paper and pencil and ask yourself the following questions: 1. Is the foundation in good condition? 2. Will the exterior walls need refinishing? 3. Do you need new door frames, or new doors? 4. Will you need to change some windows? 5. Are the interior partitions in the best place or will they need to be changed? 6. Are the floors in good condition? Will you need to put down new flooring if you change a wall? 7. Is the chimney in good condition or will it need to be rebuilt? 8. Does the roof need reshingling? 9. Is it insulated? 10. Is the heating system adequate? 11. Do you have a water and sewage system in at present?

After all these things are considered, will you have what you want when you are finished? Will remodelling be a good investment? You will find that remodelling calls for as much thought and careful planning as a new building.

Plan your entire house as you want it when it is completed, even if some of the things cannot be done right away. Anything done now will affect what may be done in the future. For example, if you put in the bathroom, or a heating system, you will not want to move it in a few years as this is very costly. It is easier and cheaper to make changes or correct mistakes on paper than in the building, and before rather than after remodelling starts.

If you are not going to do the work yourself it is a good idea to talk over your plans with a carpenter, as often something you may feel is a minor job will entail several things and will end up as a major renovation.

Before you start to remodel you should do a lot of planning get suggestions from your D.H.E., get estimates on the material and labour. Then add about 1/3 more to the estimated cost of remodelling for unforeseen things that will be cropping up. Have everything planned right down to the colour scheme.

If the estimated cost of remodelling is well under the cost of a new home, then you would probably be wise to remodel. If, however, remodelling is costly, then you would probably be wise not to start remodelling and build a new home instead. Carefully planned remodelling can be very successful. Your home doesn't have to be new to be attractive and comfortable.

RAMONA

MRS. JEAN STEWART
Correspondent.

Klondike Days visitors were the Steve Lysak family and the Ken Stewart family on Thursday and the Hallett family on Saturday. Everyone had a good time.

Get well wishes to Mr. Allan Darragh who is in the Drayton Valley Hospital. Mr. Darragh's mother, sisters and other relatives were up to visit him from Calgary, on Monday.

Marge Pollard has bought a new home in Drayton Valley and moved it out to the farm. This week she will be moving into it and Kelly's will be moving into her other house. Vern and Pat Benjamin of Moon Lake have bought Kelly's house and will be moving into it soon.

Audrey Stewart, Linda, Lois and Lyle of Stewart, B.C. were visitors Monday at Audrey's mother-in-law Mrs. Dora Stewart. Audrey is staying with her mother and dad Mr. and Mrs. Les Herndon of Drayton Valley.

Lois and Alberta Fletcher are spending a week in Edmonton with their aunt and uncle. This is their first trip to Edmonton and they say they are enjoying their visit. Friday they took in Klondike Days.

Birthday greetings this week to Helen Darragh and Holly Fletcher August 3rd, Janette Blatkevitz, August 6th.

LODGEPOLE NEWS

MRS. CHARLOTTE KAY,
Correspondent.

Mr. and Mrs. Norman Stewart have returned from a honeymoon in Truro, Nova Scotia, and have taken up residence in Lodgepole.

We welcome to Lodgepole Mr. and Mrs. MacGregor and family who is our new Postmaster and Manager of the Lodgepole Sports Shop.

Mr. and Mrs. Ron Schultz and family have returned from a vacation spent in Cabri, Saskatchewan and other towns. They called in at the Carlsons in Saskatoon.

Mrs. Shirley MacMillan and her children Cyril, David and Sandra are holidaying in Lloydminster, Saskatchewan.

Mr. and Mrs. Steve Brodersen and son were recent visitors at the home of Steve's parents, Mr. and Mrs. Bill Brodersen.

Mr. and Mrs. Paul Ressler of Manning, were visitors at the home of Mrs. Resslers' parents, Mr. and Mrs. Jack Schmidt.

Mrs. May Swan of Kincaid, Scotland was also a visitor at her sisters, Mrs. Jack Schmidt's home.

Miss Adeline Negriff visited Lodgepole recently.

Mrs. Hugh Palmer and her children Yvonne, Cindy and Harold returned recently from a vacation in Saskatchewan.

Mrs. Stuart Kyle of the Brazeau Dam and Darcy and Kandy returned from a holiday at Manor, Saskatchewan.

A suburbanite is a man who hires someone to mow his lawn so he can play golf for exercise

**What's going on
in that house
on the hill?**

Our Pilsner label raises many exciting questions, and while we can't answer all of them, we can tell you about that house on the hill. It's the House of Lethbridge where we still brew Pilsner Beer slowly and naturally. Is the good old-fashioned way still the best way? No question about it!

AFTER THE FAMOUS FORMULA OF THE HOUSE OF LETHBRIDGE

Cattle Like Night Life

Cattle don't eat any more feed when you provide a lighted feedlot, but they space their time at the feed bunk more evenly. A 6-year USDA study shows cattle eat up to 25% of their daily ration after dark if the feedlot is lighted. Scientists believe this helps them gain more efficiently.

DRAYTON VALLEY, ALTA.

Many Albertans Unaware of Province's Points of Interest

There are many places of interest in Alberta, some of them not on the usual run of tourist tripping. The following are only a few of the suggested places that may be of educational and recreational concern to Albertan and visitors alike.

CALGARY STOCKYARDS
For anyone interested in livestock, the Stockyards at 21st Avenue and 12th Street S.E., are a fascinating spot. Nearly 100 million dollars a year in stock passes through these Stockyards. An unusual experience may be enjoyed by sitting in on the Daily Cattle Auction, any weekday at 10 a.m.

PEACE RIVER
Twelve Foot Davis

A handcarved wooden statue of "Twelve Foot Davis," historical character of the early Peace River days, stands in a small park in the town of Peace River, some 320 miles northwest of Edmonton. Davis' grave is a favorite view-point high on a hill overlooking the town, and the junction of the Peace and Smoky Rivers.

MILK RIVER

"Eight Flags" Memorial
A cairn made of native prairie stones and petrified wood is mounted with a bronze plaque telling the story of how this area of south central Alberta has been under eight flags during its 170-year history. Each of the flags represented is flown from one of the poles surrounding the cairn.

CZAR

Shorncliffe Park Museum

Open Sundays, holidays and for special events during May-September. Exhibits are mainly of a household nature as well as pertaining to the natural history of the area, depicting life on the prairies up to the present time. There are fossils, Indian relics, stones, minerals, etc.

DUNVEGAN
The St. Charles Mission
The first permanent mission formed in Fort Dunvegan, on the Peace River, in 1866 by the Roman Catholic Church. The present church was constructed in 1884 by Father Grouard, who with his own hands cut, hewed and sawed the logs. Inside he painted ornate decorations which are still there.

ELK ISLAND
Ukrainian Pioneer Home
Replica of an early Ukrainian home in Elk Island National Park contains objects relating to eastern European

culture. In addition, a local cairn was erected at the home of Wasyl Eleniak, one of first two Ukrainians to come to Canada.

LACOMBE
Agricultural Research Station
Beautiful grounds, one of the most beautiful and extensive arboreta in Alberta, and a picnic ground which accommodates a great number of visitors. Visitors are welcome anytime, with guided tours between 8 a.m. and 5 p.m. Monday through Friday.

FORESTBURG
Battle River Station - Canadian Utilities Ltd.
Guided tours of this interesting thermal electric power station are conducted during the summer months. Visitors may also tour the Diplomat Coal Mine in the Forestburg area, where they will see one of the largest "walking drag line" shovels in North America.

MORLEY
McDougal Memorial Church
Built in 1873 by Rev. John McDougall in Stoney and Blackfoot Indian country, school added in 1875.

DRUMHELLER
No trip through southern Alberta would be complete without a visit to Drumheller, and the tour of the Dinosaur Trail, with stops at the Drumheller Museum, the huge life-size statue of Tyrannosaurus Rex at the edge of the city, the Homestead Museum, the "little Church," Horse Thief Canyon, the Dinosaur Gravard, the Hoodoos, and the old mining towns in the area.

LETHBRIDGE
The High Level Bridge
The longest and highest structure of its kind in Canada, this huge trestle bridge measures over a mile in length and rises 314 feet at its highest point, and is located on the Canadian Pacific Railway line between Lethbridge and Fort McLeod.

MEDICINE HAT
Pioneer Museum
A roadside museum located near the community tourist information booth on the Trans-Canada Highway displays furnishings of a typical southern Alberta pioneer home, as well as a fine collection of old firearms, saddles, lamps,

clocks, and a replica of a Red River cart, and a section of Indian lore.

WETASKIWIN
Western Canada Pioneer Museum

The only one of its kind in Alberta, this museum contains a unique collection of transportation items, from stage coaches and horse drawn hearses, to more "modern" automobiles and farm equipment of the early 20th Century.

DRAYTON VALLEY

Brazeau Dam
Located 95 miles southwest of Edmonton, this earth fill dam towers 203 feet above

the original river bed. The powerhouse contains three of the largest turbines and generators in the world.

HINTON

Pulp Mill

This modern plant, using 300,000 cords of wood can turn out annually 150,000 tons of the whitest and strongest pulp made. Visitors are invited to participate in regularly scheduled conducted tours, to view this mighty operation. Hinton is located 178 miles west of Edmonton on Highway 16.

Cattle Marketing Commission Proposed

A draft of a plan for a cattle marketing commission has been sent out by Alberta Agricultural Products Marketing Council to all cattle breed and farm organizations.

Submitted by the Western Stock Growers Association in co-operation with the Alberta Federation of Agriculture, the plan is designed to initiate a program to stimulate, increase

and improve the economic well-being of the cattle industry by speeding up research improving marketing methods, providing quality standards and implementing promotion programs.

Canadian cattlemen are becoming increasingly aware that they must produce beef more efficiently if they are going to beat the cost-price squeeze. The experts point out that it is no longer economical to wean a 400 pound calf. To attain a reasonable level of profit, cattlemen should be aiming at weaning 600 pound calves off grass in the fall.

It has also been pointed out that the price of beef has reached its peak in relation to other meat products. If it goes much higher it will no longer be competitive with broilers, pork, etc. and there is a real danger of beef substitutes, made of such things as soybeans, entering the market. The only way that production can be made more efficient is through a more realistic way of evaluating beef carcasses in terms of retail cuts, and by improving conversion rates. Research has enabled the broiler industry to produce a pound of meat from two pounds of feed, while it takes seven to eight pounds of feed to produce a pound of beef.

If adopted, the commission would be composed of five producers representing the various segments of the cattle industry. It would have the power to collect a fee not ex-

ceeding 10 cents per head on all cattle and calves sold through public markets for beef. The fee would be used to defray expenses of the commission and costs of research and promotion programs.

It is expected that much of the promotional program would be carried out on a national basis by the Canadian Cattlemen's Association, with provincial commissions or associations being responsible for establishing policies and collecting fees through cattle marketing in each province. Several provinces appear to be in the process of establishing commissions or associations.

If no objections to the proposed plan for a cattle marketing commission are received by the Marketing Council, the plan will be submitted to the Minister of Agriculture for consideration by cabinet.
